

Pramod Kumawat

Jaipur, Rajasthan pramodbardoti@gmail.com +918005986065 <https://www.linkedin.com/in/pramod-kumawat-463765299/> <https://github.com/pramodkumawat8005/>

PROFESSIONAL SUMMARY

AI Engineer skilled in building agentic AI workflows, LangGraph state-machines, and RAG architectures using Python and LangChain. Experienced in implementing persistent conversation memory with SQLite, vector search with FAISS, and containerized backend services.

TECHNICAL SKILLS

Programming Languages: Python

Frameworks: LangChain, LangGraph, Streamlit, FastMCP

Databases: PostgreSQL, SQLite, FAISS

Devops And Cloud: Docker, Docker Compose

Tools: Git, GitHub, VS Code

ML: HuggingFace Embeddings, Llama-3.3-70b, Gemini-2.5-flash

Gen Ai: RAG, Embeddings, Vector Search, Prompt Engineering, OpenAI / Groq / Gemini APIs

Agentic Ai: LangGraph Agents, Multi-Agent Workflows, Function Calling / Tool Calling, MCP (Model Context Protocol)

Other: AsyncIO, REST APIs, JSON Processing

PROJECTS

LangGraph Agentic RAG & Chatbot System

Python, LangGraph, LangChain, FAISS, HuggingFace Embeddings, SQLite, Streamlit

Conversational AI agent system built with LangGraph and LangChain featuring dynamic tool calling, PDF-based RAG, and multi-thread state persistence. Supports vector search via FAISS and streamable user interaction using Streamlit.

Expense Tracker MCP Server

Python, FastMCP, SQLite, JSON

Model Context Protocol (MCP) service providing structured data persistence and automated data querying tools via FastMCP. Enables AI agents to execute CRUD operations and retrieve JSON metadata endpoints.

EDUCATION

MCA in Computer Science

2025 - Present

University of Rajasthan | 8.2

BCA in Computer Science

2022 - 2025

University of Rajasthan | 8.0
